

Things are still going well with BAER assessments and close coordination with the teams and forests on requests has made for an easy authorization process. There are currently 6 authorization letters working through the correspondence system with a 7th to be entered in this afternoon for the Natchez Fire.

Natchez Fire, Rogue River-Siskiyou - This request was submitted today for \$33,627. Treatments include road drainage improvements, invasive plants early detection-rapid response, and hazard warning signs.

Authorizations working through Mercury.

South Umpqua Complex, UMP - \$89,042

South Umpqua Complex, RSF - \$143,000

Snow Shoe Fire, UMP - \$22,363

Cougar Creek Fire, OWF - \$318,836

Miriam Fire, OWF - \$49,047

Watson Creek, FWF - \$72, 511

Remaining assessments:

The local folks on Olympic NF are working through the assessment on the Maple Fire and anticipating a small request hopefully next week.

The Crescent Mountain/McLeod (OWF) team has an anticipated close out meeting with the Forest Thursday Oct. 4th.

The Taylor Creek/Klondike (RSF) team is solidly into field work and still tentatively expecting to be wrapping up around Oct. 10th.

The last team in the region will start assessing the Terwilliger Fire on the Willamette on Oct. 9th.

Thanks!

Cara
